## VINEYARDS

**VINEYARDS** Maipo Valley

**AGE** 22 years old.

**CLIMATE AND SOIL** The grapes come from our historic vineyard in Padre Hurtado in the lower Maipo Valley (33° 32' 25" S) at an altitude of 405 meters above sea level. The clay soils have a neutral pH and are of alluvial origin from the Maipo River basin. They are deep with good drainage, which helps control plant vigor for proper fruit load with small clusters and berries. The climate is Mediterranean with an average annual rainfall of 250-300 mm, and the daily temperature differential is 20°-25° C. All of these factors plus the coastal influence work together to enable proper fruit ripening. The vineyard is certified organic and biodynamic and managed accordingly.

**VINEYARD MANAGEMENT** Shoots are removed in late spring, leaves are pulled before fruit set, and the best clusters are selected during harvest.

## HARVEST

**GROWING SEASON** The weather was mild throughout the entire growing season, which enabled the grapes to reach a perfect state of ripeness and complexity. Great yield and quality.

**HARVEST DATE** Second week of March.

**HARVEST BRIX** 24° Brix

## ENOLOGICAL NOTES

The grapes were received and destemmed in our winery in Padre Hurtado. Alcoholic fermentation took place spontaneously with native yeasts and lasted approximately 7 days with maximum temperatures of 24°-25° C in 40,000-liter stainless steel tanks. Total maceration time was approximately 16 days. Malolactic fermentation took place while the wine aged in stainless steel tanks.

**AGING** 100% in stainless steel tanks.

**BOTTLING** December 2019

## WINEMAKER'S TASTING NOTES

Intense garnet red in color with a violet hue. The nose is ripe but fresh, with fruity notes recalling black cherries and plums along with a bit of menthol, while notes of spices such as nutmeg appear on the backdrop. The palate is juicy, and the tannins are robust and velvety, leading with notes of blackberries and chocolate on the lingering finish.
